1. THE ICON PROGRAMME

1.1. DESCRIPTION

The **InterContinental Academic Exchange Programme (ICON)** finds its origin in long-lasting collaborative links between the SGroup network, its members, and institutions located in strategic regions linked to the SGroup Think Tank Academy. **As part of this mobility programme, the academic/administrative staff and PhD Candidates of full-member European Universities of the SGroup can apply for a SGroup scholarship** for a short mobility period **in a partner institution of their choice outside Europe** and belonging to one of the Think Tank Academy regions (cf. 2.2 below). The participants and the activity programmes financed by the ICON programme must represent the quality standards and values inherent to the SGroup network.

1.2. AIMS AND OBJECTIVES

The aim of the ICON programme is to promote, facilitate and/or strengthen collaboration between SGroup institutions and overseas partners, thereby contributing to the SGroup's commitment to expanding international and intercontinental cooperation opportunities in the field of education and research through the transfer of knowledge and the development of strategic collaborations beyond Europe.

The strategic objectives of the ICON programme are the following:

- Facilitate collaboration in research and education between the EU and the Think Tank Academy regions (cf. 2.2 below), as well as between SGroup European members and associate members;
- Encourage contact-making leading to the development of joint projects that can be submitted for EU-funding and other relevant funding schemes;
- Promote new or reinforce existing intercontinental partnerships;
- Support the professional development of staff and the internationalisation strategies of SGroup member institutions;
- Strengthen links between institutions leading to the establishment of co-tuition double/multiple/joint degrees;
- Contribute to the SGroup's goals of fostering university excellence in education and research and promote engagement with educational and societal needs in a creative and innovative way.

2. CALL FOR APPLICATIONS FOR 2026

The ICON programme for the year 2026 will provide **18 grants** for applications from **academic and/or administrative staff and PhD Candidates**.

The amount of **each grant is maximum 3.000 EUR** (final amount will be calculated upon proof of actual expenses).

Co-financing from other sources is eligible as long as the **principles of co-financing**, and the correspondent prohibition of double financing, is respected (meaning that costs for the same activity cannot be funded twice).

2.1. CALL PERIOD

The 1st call is open from the 7th of January 2026 (Wednesday) to the 23rd of February 2026 (Monday).

In the case that there are some remaining grants, a 2nd call will be open from the 6th of April 2026 (Monday) to the 25th of April 2026 (Friday),

Applications will be judged according to the eligibility and awarding criteria detailed below under 3..

| Call | Call launch | Call deadline | Eligible period of mobility |
|-------------------|-------------|---------------|-----------------------------------------------------------------------------------|
| 1 st | 07/01/2026 | 23/02/2026 | From the 7 th of January 2026 to the 31 st of December 2026 |
| 2 nd * | 06/04/2026 | 25/04/2026 | From the 6 th of April to the 31 st of December 2026 |

* The 2nd call will only open in case the total number of grants cannot be awarded during the 1st call.

SGroup Liaison Officers are expected and encouraged to widely disseminate the call and the relevant information about ICON within their respective institutions.

Given that one of the SGroup strategic goals is to enhance research and PhD level cooperation, it is strongly recommended that Liaison Officers disseminate this opportunity to Doctoral Schools, PhD Supervisors, PhD Candidates and Research Offices within each institution.
