**DECREES**

### **Article 1 – Integration of the Call for Applications**

The Call for Applications for admission to the International First-Level Master's Program in "Strength and Conditioning for High Performance in Team Sports" (Academic Year 2026/2027), issued by Director's Decree No. 272/2026, Protocol No. 63661 of 15 May 2026, is hereby supplemented as follows.

Applicants who have not yet obtained the academic qualification required for admission by the application deadline may participate in the selection procedure, provided that they are enrolled in the final year of the required degree programme and obtain the required academic qualification no later than 31 December 2026.

Such applicants shall be admitted conditionally and shall upload, together with their application, a self-certification of their academic career confirming their enrolment in the final year of the relevant degree programme.

For the purpose of reaching the minimum number of students required for the activation of the Master's Program, priority shall be given to applicants who already hold the required academic qualification. The Master's Program cannot be activated if the minimum number of enrolled students consists exclusively of conditionally admitted applicants.

Failure to obtain the required academic qualification by 31 December 2026 shall result in the cancellation of the applicant's enrolment, without entitlement to any refund of tuition fees already paid.

### **Article 2 – Final Provisions**

All the other provisions contained in the Call for Applications issued by Director's Decree No. 272/2026, Protocol No. 63661 of 15 May 2026, shall remain unchanged.

This Decree constitutes an integral and substantial part of the Call for Applications and shall be published on the University's official website and on the official webpage of the Master's Program.
