

Ciclo XXXIV

Dott.ssa Giuseppina Chiara Barillà

- (2020) Barbaro G., Foti G., Nucera A., Barillà G.C., Canale C., Puntorieri P., Minniti F. Hazard and damage mapping of coastal flooding areas. Case studies: Scilla and Monasterace (Italy). *International Journal of Safety and Security Engineering*.
- (2020) Canale C., Barbaro G., Petrucci O., Fiamma V., Foti G., Barillà G.C., Puntorieri P., Minniti F., Bruzzaniti L. Analysis of floods and storms: concurrent conditions. *Italian Journal of Engineering, Geology and Environment*, 1, pp. 23-29, doi: 10.4408/IJEGE.2020-01.S-03.
- (2021) Canale, C., Barbaro, G., Foti, G., Petrucci, O., Besio, G., & Barillà, G. C.. Bruzzano river mouth damage due to meteorological events. *International Journal of River Basin Management*, 1-17.
- (2021) Foti, G., Barbaro, G., Barillà, G.C. & Frega, F. Effects of anthropogenic pressures on dune systems. Case study: Calabria (Italy). *Journal of Marine Science and Engineering*. Under review.
- (2021) Barbaro, G., Foti, G., Barillà, G.C. & Frega, F. Beaches and dunes erosion: causes and interventions. Case study: Kaulon archaeological site. *Journal of Marine Science and Engineering*. Under Review.
- (2018) Versaci, R., Minniti, F., Foti, G., Canale, C., & Barillà, G. C. River anthropization: Case studies in Reggio Calabria, Italy. *WIT Transactions on Ecology and the Environment*, 217, 903-912.
- (2019) Barbaro G., Barillà G.C., Canale C., Fiamma V. Il rischio di erosione costiera in Calabria. The coastal erosion risk in Calabria. ICIRBM - Guardia 2019, 40th Edition of Italian Conference on Integrated River Basin Management, 19 – 22 June 2019, Guardia Piemontese (Acquappesa, Prov. Cosenza), Italy.
- (2019) Canale C., Barbaro G., Petrucci O., Fiamma V., Foti G., Barillà G.C., Puntorieri P., Minniti F., Bruzzaniti L. Analysis of floods and storms: contemporaneity conditions. SCACR'19 - Coastal Zone Strategies under Climate Change: Ecology, Engineering and Adaptation, 9 – 11 September 2019, Bari, Italy.
- (2020) Canale C., Barbaro G., Petrucci O., Besio G., Foti G., Barillà G.C., Puntorieri P. Analysis of concurrent conditions of floods and sea storms: a case study of Crotona, Italy. *Proceedings of 12th International Conference on Risk Analysis and Hazard Mitigation*, 23-25 giugno, 2020.
- (2020) Foti, G., Barillà, G. C., Barbaro, G., & Puntorieri, P. Remote sensing and GIS to support coastal erosion risk analysis in Calabria, Italy. *Proceedings of 12th International Conference on Risk Analysis and Hazard Mitigation*, 23-25 giugno, 2020.
- (2020) Barillà G.C., Foti G., Barbaro G., Currò F. Coastal flood hazard: a quick mapping methodology. Case study: Gioia Tauro (Italy). *Proceedings of 4th International Symposium New Metropolitan Perspectives (ISTH2020)*, Reggio Calabria, 26-28 maggio, 2020.
- (2020) Barillà, G. C., Foti, G., Barbaro, G., & Puntorieri, P. Shoreline changes of a pocket beach: a remote sensing application. *Proceedings of the Eighth International conference on Remote Sensing and Geoinformations of Environment (RSCy)*, 2020.
- (2020) Canale C., Barbaro G., Foti G., Petrucci O., Besio G., Fiamma V., Barillà G.C., Puntorieri P., Bruzzaniti L. Floods and sea storms. Analysis of contemporaneity conditions in Calabria (Italy). *Proceedings of the Eighth International conference on Remote Sensing and Geoinformations of Environment (RSCy)*, 2020.
- 33
- (2020) Barbaro G., Barillà G.C., Foti G., Fiamma V. Coastal hazard: analysis of the state of the art and proposal of a new methodology. *Proceedings of 41th Italian Conference on Integrated River Basin Management – Seminari Tecnico Scientifici su Tecniche per la Difesa del Suolo e dall’Inquinamento*.
- (2021) FOTI G., BARBARO G., BARILLÀ G.C., MANCUSO P., PUNTORIERI P., MANDALARI M. Analysis of the correlation between coastal erosion and anthropogenic pressure using remote sensing. Case study: Calabria (Italy). *Proceeding of the X AIT International Conference – Italian Society of Remote Sensing*, Cagliari, 13-15 settembre 2021 (evento virtuale)
- (2021) FOTI G., BARBARO G., BARILLÀ G.C., MANCUSO P., PUNTORIERI P., PIRIA R. Analysis of the erosive processes triggered by the construction of ports using remote sensing. Case study: Calabria (Italy). *Proceeding of the X AIT International Conference – Italian Society of Remote Sensing*, Cagliari, 13-15 settembre 2021 (evento virtuale)
- (2021) BARBARO G., BOMBINO G., FOTI G., BARILLÀ G.C., MAURO G., PUNTORIERI P., MANDALARI M. Coastal flooding: case studies in Calabria (Italy). *Proceeding of the X AIT International Conference – Italian Society of Remote Sensing*, Cagliari, 13-15 settembre 2021 (evento virtuale)
- (2021) BARILLÀ, G. C., BARBARO, G., FOTI, G., MANCUSO, P., FIAMMA, V., MALESINSKA, A., ... & MANDALARI, M.. COASTAL EROSION HAZARD AND VULNERABILITY: CASE STUDY OF PORTICELLO, SOUTH CALABRIA, ITALY. *Sustainable Water Resources Management XI: Effective Approaches for River Basins and Urban Catchments*, 250, 181.
