STUDIORUM UNIVERSITAS
MESSANAE

FOUNDED IN 1548
In the Italian university quality rankings, UniMe ranks second among large Southern Italy universities. Furthermore, in the latest Italian research quality evaluation, UniMe achieved a 17% increase compared to the previous evaluation, recording the best performance nationwide. In its 12 Departments, UniMe offers courses in the field of life sciences, sciences and technologies, human and social sciences. Many undergraduate and postgraduate courses are available. Enrolled students are about 24,000 and for several years now the University has launched an intense program to promote international exchanges.

FOUNDED IN 1548, it is a University in continuous growth, so much so that in the last year the number of students has increased by 13%. The University is one of the main reference points for the city of Messina, the 13th city in Italy for dimension (with its 240,000 inhabitants), known as the "gate of Sicily". Stretched on the sea, the city and its area (with international heritage sites such as Taormina) offer many attractions, so that Messina is today one of the country's leading cruise ship ports.

A UNIVERSITY TOWN

UniMe students represent more than 10% of the urban population. Lots of them come from other provinces and regions and – as mentioned above – others come from abroad. Experiencing the University of Messina also means experiencing the town as a citizen. For this purpose, the university organizes several events and student groups meet in clubs at night to have fun together.
STUDENT SERVICES AND FACILITIES

UniMe students have the opportunity to take city buses and trams for free. Moreover, they can use transport services, which take them to the University Campus. UniMe students can have access to accommodations and university canteens and many other services, such as the support for the integration into the labour market, through the “Centro di orientamento e Placement”.

UNIME IS ALSO SPORT

UniMe boasts a modern and fully equipped sport center run by CUS-UNIME. Sports facilities are offered promoting the spreading of amateur sports and are among the most advanced in Italy. Students can practice and take courses on all main indoor and outdoor sports. http://www.cusunime.it

Baseball pitch
Multifunctional Gym
Rugby, hockey and soccer pitches
Indoor swimming pool
Outdoor swimming pool
3 indoor tennis courts
2 multifunctional tennis
Five a side soccer courts

NETWORKS

UniMe participates to International networks to promote International cooperation, develop joint projects and enhance mobility of students, professors and staff.

MEDITERRANEAN UNIVERSITIES UNION - UNIMED
UNIADRION
TETHYS CONSORTIUM
EUROPEAN UNIVERSITY ASSOCIATION (EUA)
INTERNATIONAL MOBILITY (ECTS SEEKERS)

More than 400 mobility agreements have been signed by the University of Messina with foreign Universities from all over the world. UniMe promotes international students exchange programs at European and international level. A world of services is available to international students coming to Messina to carry out a study period! UniMe has a multi-campus structure: four main campuses around the City with canteens, accommodations and well stocked libraries including the best scientific and academic publications. Each Department provides students with reading rooms and free wi-fi connection. International students will be also provided with a free course of Italian language. A tax waiver policy is applied for international mobility students.

CYCLE 01

These degree programmes provide students with an adequate command of general scientific methods and contents as well as with specific professional skills. The general access requirement is the Italian High school diploma or a comparable foreign qualification awarded after 12 years of schooling.

CYCLE 02

These master degree programmes provide education at an advanced level for the exercise of highly qualified activities in specific areas. Access is by a Laurea degree or a comparable foreign degree. Admission is based on specific course requirements determined by the Degree courses. Some programmes are defined "single cycle programmes" (Corsi a ciclo unico). For these programmes access is by the Italian High school (or a comparable foreign qualification); admission is based on entrance exams. The studies last 5 years (6 years and 360 ECTS/CFU credits in the cases of Medicine and Dentistry).

CYCLE 03

The main degree programmes in this cycle are Corsi di Dottorato di Ricerca (research doctorate programmes); the students/young researchers enrolled in these programmes will acquire methodologies for advanced scientific research, will be trained in new technologies and will work in research laboratories, wherever appropriate. Access is by a Laurea Magistrale degree (or a comparable foreign degree). Admission is based on a competitive exam.
ACADEMIC OFFER

COURSES TAUGHT IN ENGLISH
- Master Degree in Engineering and Computer Science
- Postgraduate Course in Banking and Finance
- Master Degree in International Management
- Ph.d. in Economics, Management and Statistics
- Ph.d. in Applied Biology and Experimental Medicine

COURSES TAUGHT IN ITALIAN
BACHELOR DEGREES – FIRST CYCLE
